### ■ Notation

Refer below table for notations in this document.

Product Name	Notation
Dual Channel Converged Network Adapter (10Gbps)	CNA, CNA(10Gbps)
Multichannel Mode	UMC (Universal MultiChannel mode)

### ■ Firmware

This document describes the configurations of the CNA whose firmware version is 10.6.193.1501/10.6.193.23.

### ■ Trademark

Company names and product names described in this document are registered trademarks or trademarks of their respective owners. Other product names are copyrights of their respective manufacturers.

## A. Selection of CNA

In MMB Power Control Menu, select "Force boot into EFI Boot Manager" and set it into the Boot Selector of your partition and power it on.

As EFI is started, EFI Boot Manager is opened. Then, select [Device Manager] in the menu and open it and identify the CNAs on the Device Manager.

CNA is displayed on the Devices List as below.

Emulex 10G NIC: Bus: Dev: Func xx:xx:xx - 00:xx:xx:xx:xx:xx ("xx" part has any value.)

Select the CNA with the bus number on the List and start its [Emulex NIC Selection] menu.

For the bus number of the CNA, see PCI-Express Slots \*1 of the IOU on which the CNA mounted.

\*: Bus number is displayed as hexadecimal.

You see the CNA on [Emulex NIC Selection] menu as table below.

Emulex 10G NIC: Bus: Dev: Func xx:xx:xx	Emulex OCe14102-U 10Gb CNA
---	----------------------------

### ■ Devices List Menu

Record configurations of the CNAs into the sheet below, making copies of the sheet below as many as the CNAs mounted on your system.

Record the modified value into the "Selected CNA" column, if you change configuration of the CNA.

CNA	Selected CNA
Emulex 10G NIC: Bus: Dev: Func xx:xx:0 - 00:xx:xx:xx:xx:xx	Bus [ ] Dev [ ] Func 0
Emulex 10G NIC: Bus: Dev: Func xx:xx:1 - 00:xx:xx:xx:xx:xx	Bus [ ] Dev [ ] Func 1

\*: Func 0/1 correspond to Port 0/1 of the CNA respectively.

## B. Configuration Sheet of Emulex NIC Selection

Record configurations of the CNAs into the sheet below, making copies of the sheet below as many as the CNAs mounted on your system.

Put "✓" mark into "()" Using Default Setting unless you change configuration from default setting.

Put "✓" mark into "()" in Setting Values column of the sheet below if you change configuration from default setting.
