Fujitsu Solutions Value Proposition

Platinum Sponsor

Fujitsu M10-4S

Fujitsu M10-4S	
1.	Only pay for the capacity you require with Core-based activation
2.	Built-in no-cost virtualization: PPAR physical partitions, Oracle VM Server for SPARC and Oracle Solaris Zones technologies
3.	Growth of resources easily and economically from 4 to 64 processors
4.	Preserving of software investments with the full binary compatibility guarantee that the existing SPARC Oracle Solaris applications would run unmodified
5.	Mainframe-class reliability, availability, and serviceability (RAS) capabilities
