

VMware Cloud Foundation

The easiest way to the hybrid cloud

Markus Klein

Senior Director, Presales

Central EMEA

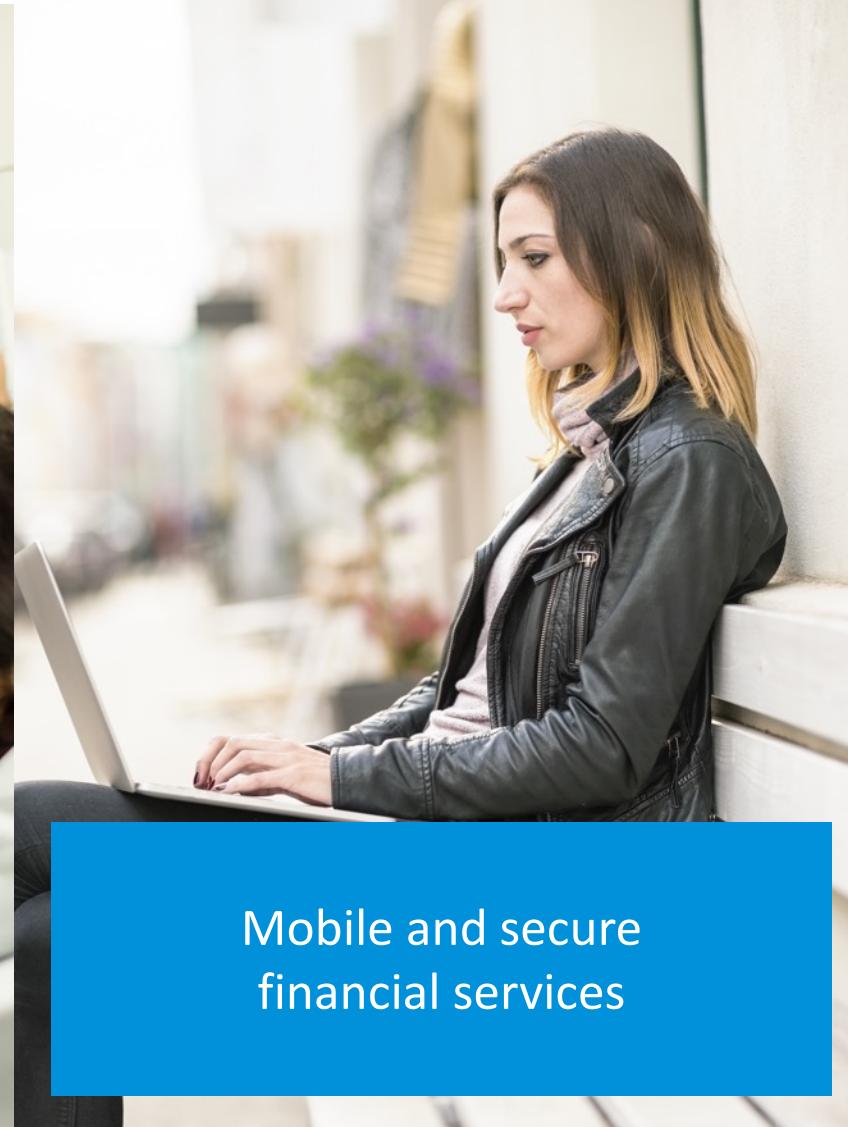

Technology Is Transforming Every Industry

Analytics-driven
precision farming

Connected and
data-driven healthcare

Mobile and secure
financial services

Business Needs Drive Customers' Strategy and Goals

This leads towards key requirements for their infrastructure

Business Focus

Strategy

Be competitive

Differentiate

Create unique value

Goals

Increase revenue

Reduce costs

Ensure lasting success

Standardisation and automation

Agility

Efficiency

Security

Future-proof investments

Need to Modernize, But No One Solution Solves Everything

Each environment offers a unique set of advantages, need something future-proof

PRIVATE CLOUD

Cost optimized for data intensive apps

Enterprise IT governance

Data locality and control

Leverages existing tools and operations

Ideal solution for the edge

PUBLIC CLOUD

Flexible, low upfront commitment

Agile and easily scalable

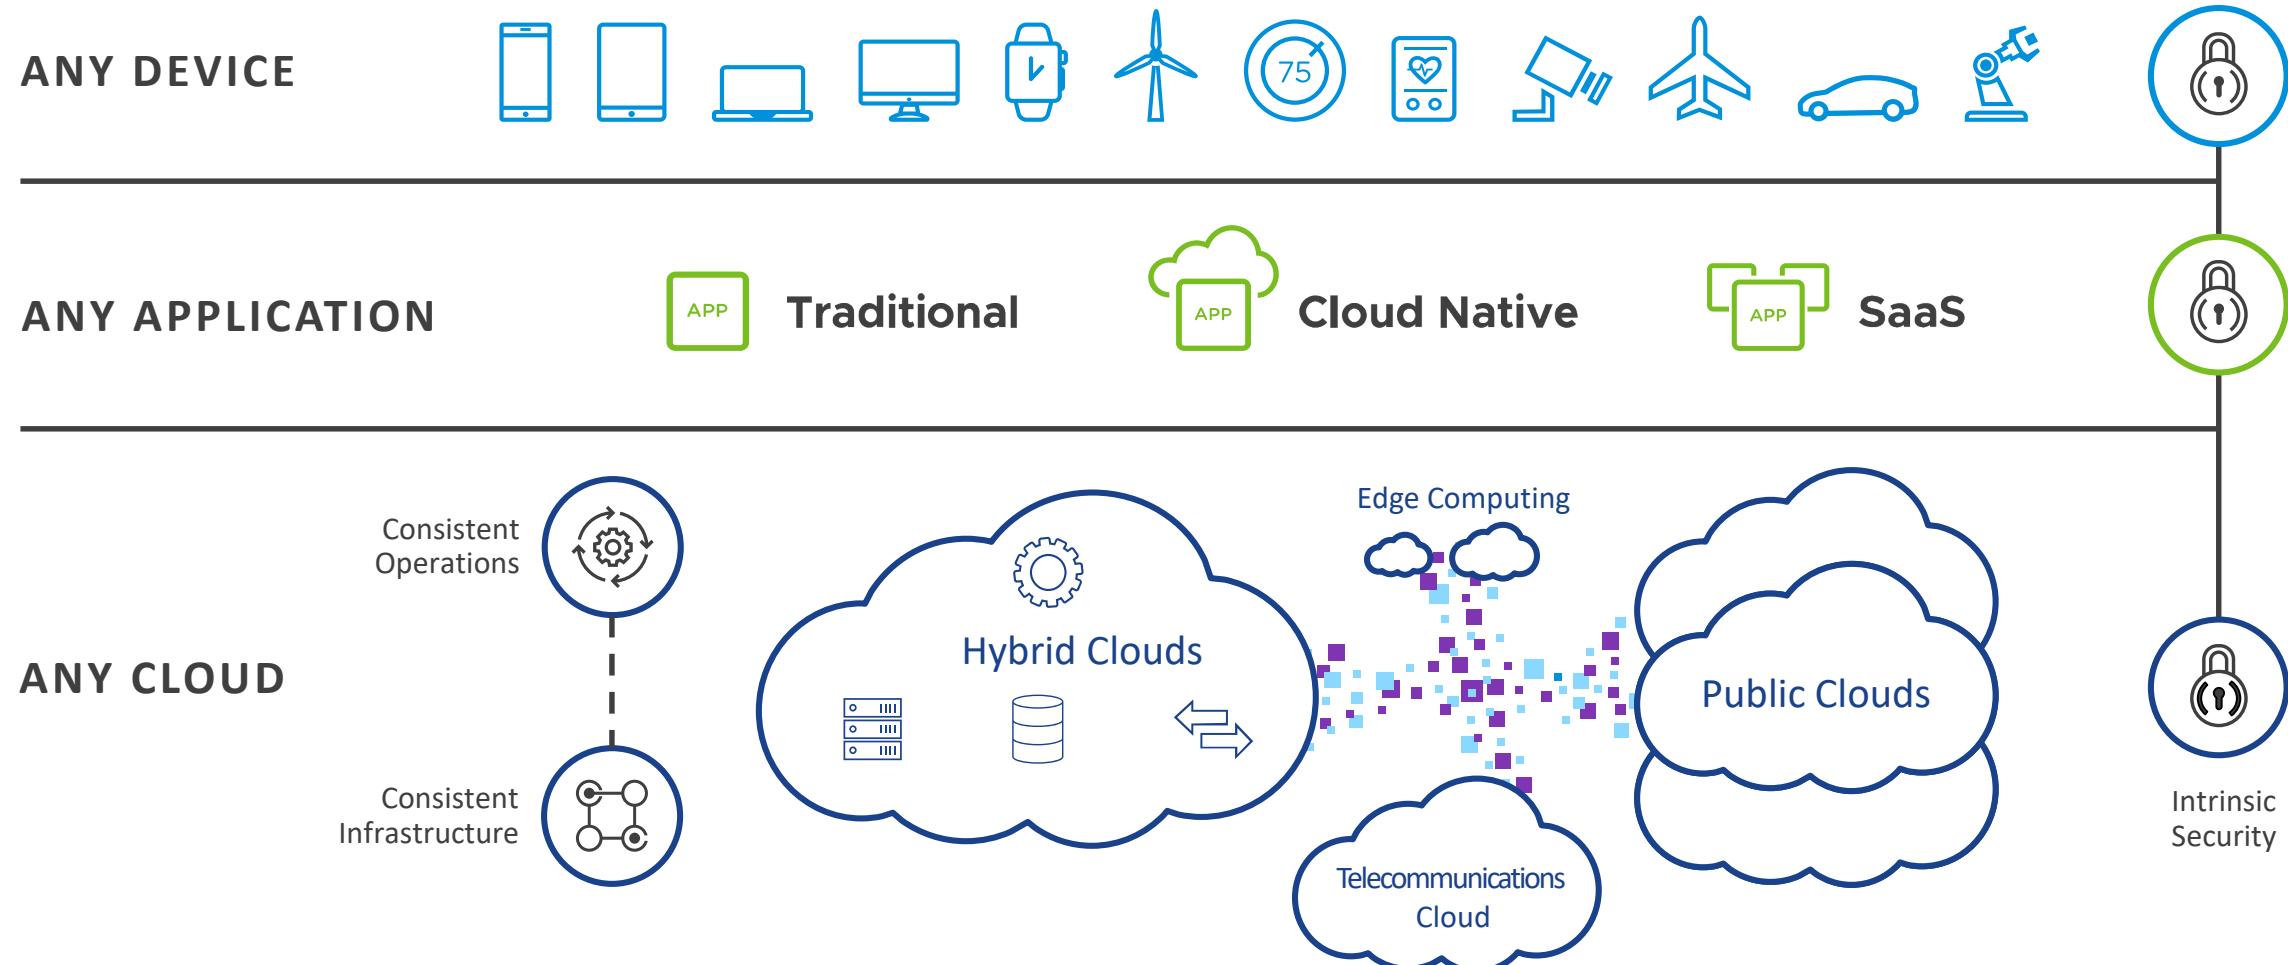

Built for new class of apps

Rich developer services

Fully managed and automated

VMware Vision

The Essential, Ubiquitous Digital Foundation

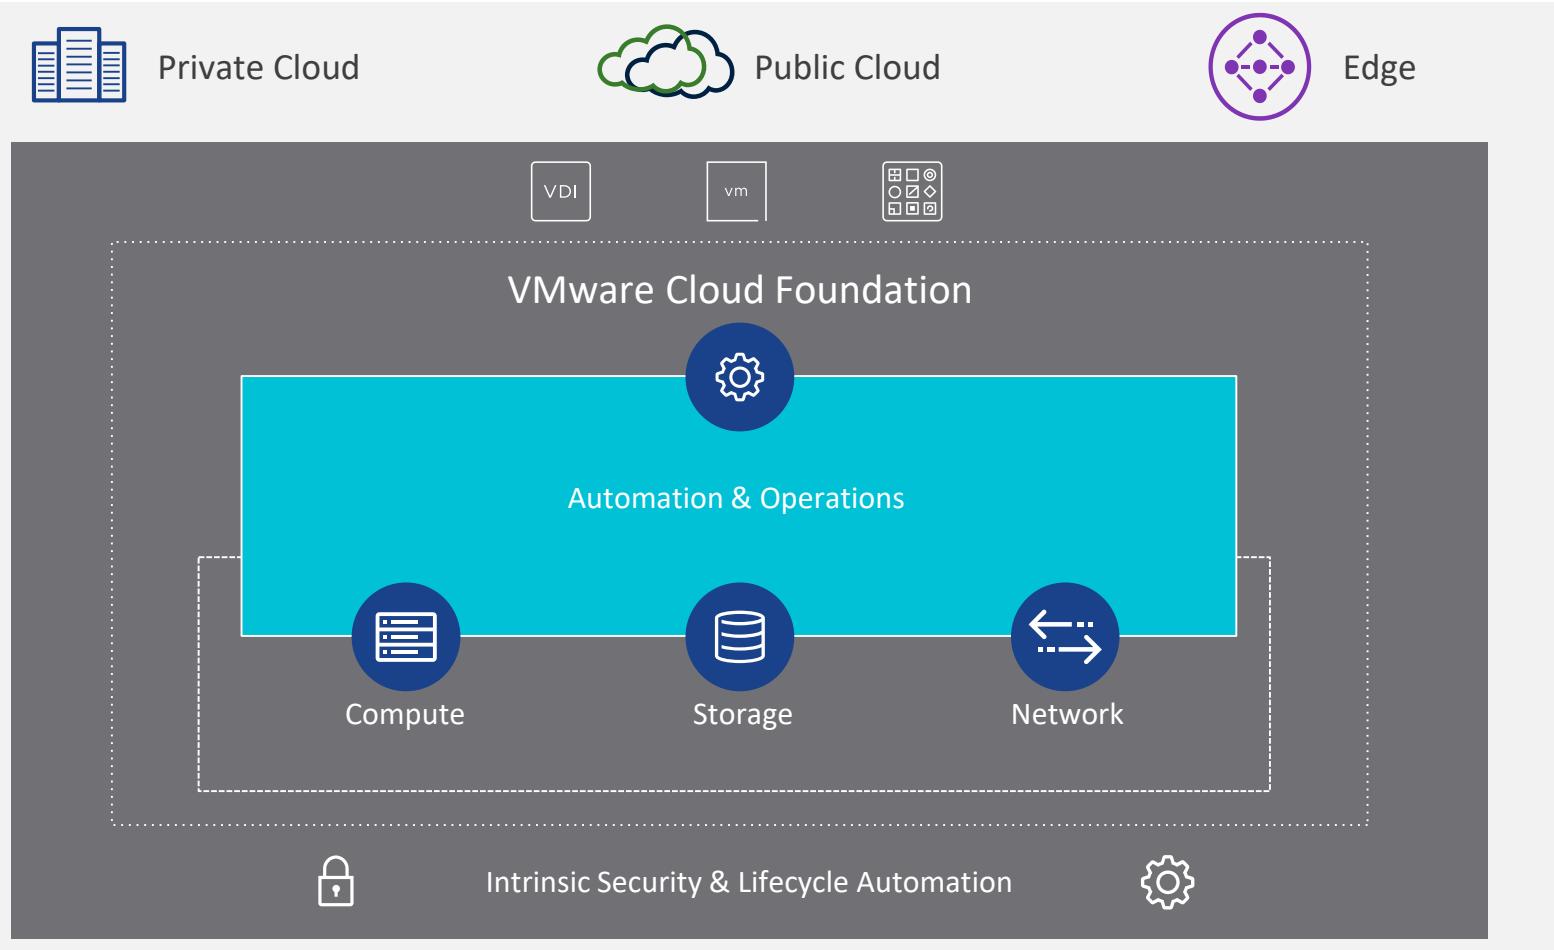

VMware Cloud Foundation.
The simplest path to the
hybrid cloud.

Modernize Your Data Center With VMware Cloud Foundation

The full stack hyper-converged infrastructure for hybrid clouds is comprehensive

- Built on **standardized & validated** architectures
- Integrated software-defined cloud platform
- Simplest to deploy and operate
- Built-in intrinsic security
- Supports traditional and new workloads
- Simplest path to hybrid cloud

Delivering Best in Class Software Defined Technologies

Based on enterprise-ready, market leading capabilities

VMware Cloud Foundation

Compute

Storage

Networking

Cloud Management

Lifecycle Automation

Industry leading server virtualization technology for you to run, manage, connect, and secure your applications

HCI based shared storage that delivers consistent performance and simple operations from cloud to edge

Create entire networks in software, embedded in the hypervisor layer, abstracted from the underlying physical hardware

Automate application provisioning through a unified self service catalog and hands off intelligent operations

Easily deploy and manage a complete private cloud through built in lifecycle automation for all day 0 to day 2 operations

Intrinsic Security

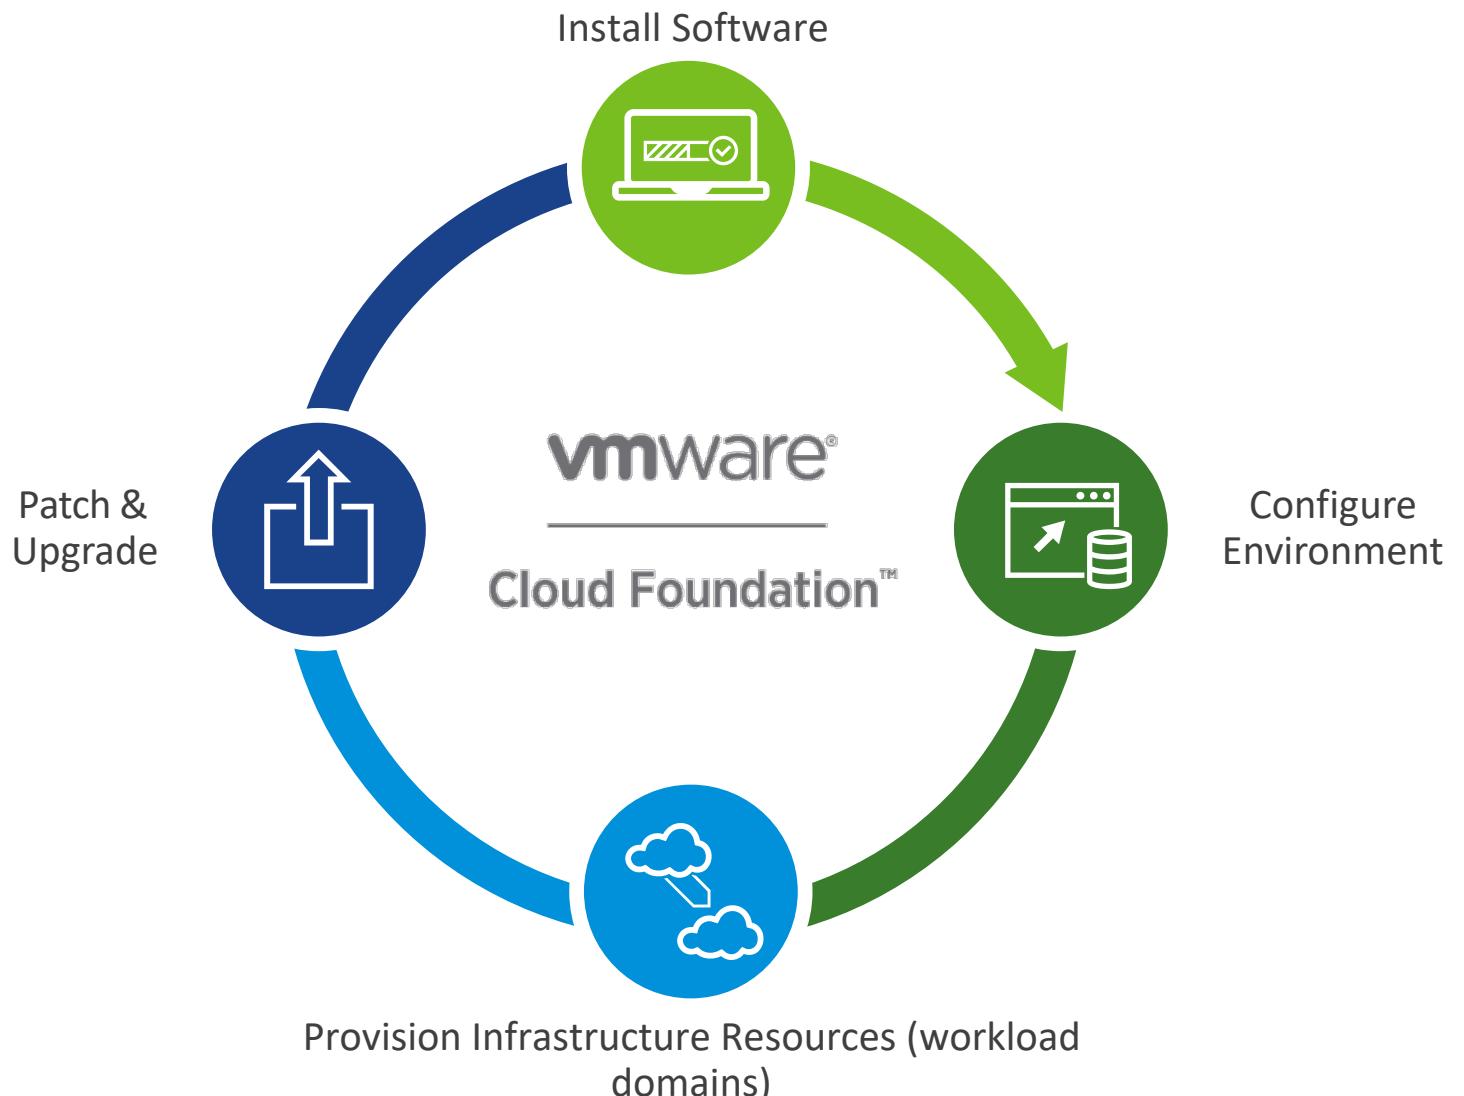

Ease Of The Public Cloud In Your Data Center

VMware Cloud Foundation delivers lifecycle automation for the complete VMware software stack

Rapid deployment and configuration

On-demand provisioning of infrastructure pools

One-click patching and upgrading

VMware Multi-Cloud Strategy

Build

Run

Manage

Connect

Protect

Any Cloud

VMware Cloud on AWS

Delivering proven enterprise capabilities on the world's most popular public cloud

As-a-Service

Rich VMware SDDC delivered as a cloud service on AWS

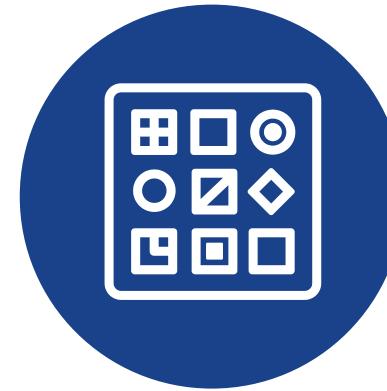

Consistent

Consistency and familiarity of VMware technologies

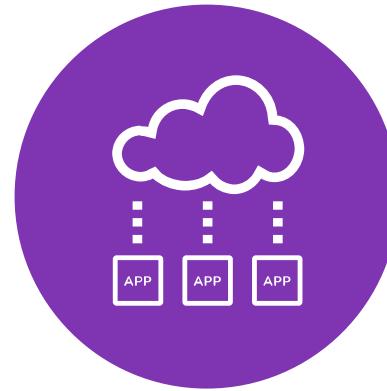

Portable

Easy workload portability and hybrid capabilities

Integrated

Direct access to the power of native AWS services

Any App

Existing and new apps with Containers and VMs

Customer-driven Use-cases

Aligning intended use to long term cloud strategy

Data center extension

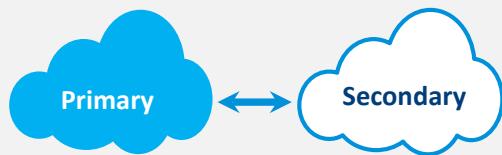

Footprint expansion / On-demand capacity

Virtual Desktops & Published Apps

Test/Dev

Disaster recovery

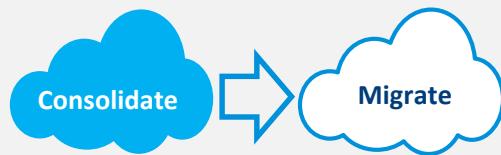

New DR

Replace existing DR

Complement existing DR

Cloud migrations

Application specific

Data center wide

Infrastructure refresh

Next-generation apps

Application modernization

New application build-out

Hybrid applications

Customer Journey

Save costs, increase security, get agile

Der Weg voran – unser Angebot an Sie

■ Der Strategie Workshop

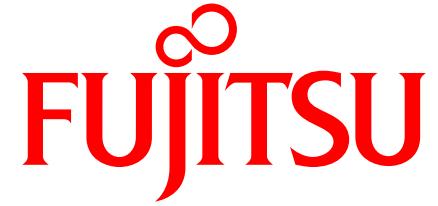

Wir kommen mit einem Fujitsu Category Manager und einem VMware HybridCloud Architect zusammen und klären Sie über die gemeinsame HybridCloud Strategie auf. Wir erklären TCO Senkungspotenziale und ROI Horizonte. Das erklärte Ziel ist es Innovationsfelder zu identifizieren und eine Agenda für den Technical Workshop zu kreieren.

■ Der Technical Workshop

Wir treffen uns mit Ihnen und Ihrer Betriebsmannschaft und ein Fujitsu HybridCloud Consultant führt in die identifizierten Innovationsfelder ein, zeigt auch ggf. Oberflächen und erklärt Funktionsweisen. Ziel ist es, dass Sie und Ihre Mannschaft neue Ideen erhalten und sich auf eine Innovationsstrategie mit uns einigen – natürlich gerne auch nachgelagert

■ Die Umsetzung

Sie und Ihre Mannschaft haben sich auf eine individuelle Innovations-Strategie geeinigt aber nun geht es darum das Top Management für diese Pläne zu gewinnen und die notwendigen Budgets genehmigt zu bekommen. Wir unterstützen Sie mit speziellem KnowHow & Unterlagen, sowie C-Level-Experten die Ihnen helfen auch diese Aufgabe souverän zu bewerkstelligen.

Vielen Dank!
