

# How to Engineer Brilliance

FUJITSU Workstation CELSIUS

Engineering and CAD-based workflows from manufacturing and AEC need vast compute power to transform design ideas into reality.

Is your device up to the challenge?

3D design  
(architecture)

3D modelling

3D visualization

Simulation & analysis

A soaring market:

**C**omputer  
**A**ided  
**D**esign

**C**omputer  
**A**ided  
**E**ngineering

**A**rchitecture  
**E**ngineering  
**C**onstruction

**By 2026:** predicted global volume of US\$ 46 billion  
**+12% annual growth**

Source: The Research Corporation, Global Engineering Software Market Report 2026

Be part of this growth market:

Energize your data-driven transformation with workstations for engineering and design professionals.

What creative professionals want:

Accelerate workflow,  
processes & projects  
and save time

Run complex, lengthy  
simulations quickly  
in less time

Produce beautiful,  
compelling product  
designs or models

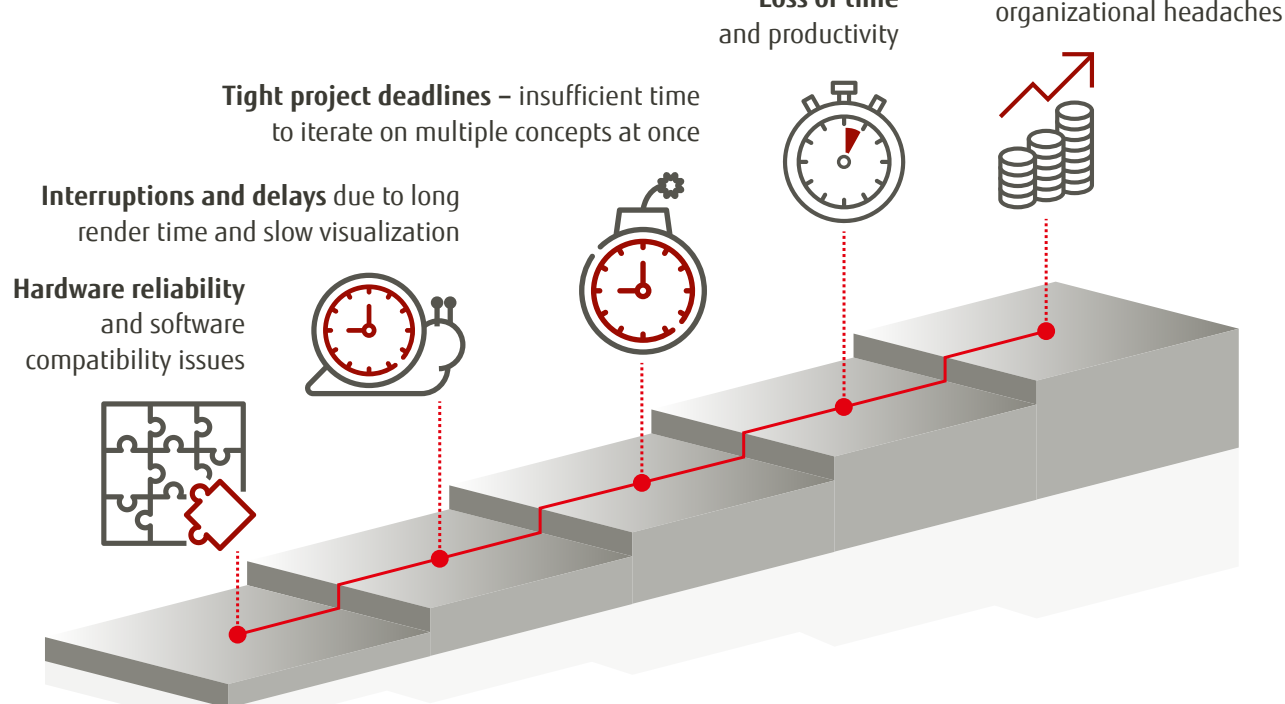

Make confident,  
informed decisions  
at all stages of  
the design process

**CAD Professionals Architects**  
**Product Designers Rendering Specialists**  
**Automotive Engineers Application Developers**  
**AR / VR and Machine Learning Developers**  
**Aerospace Engineers**

What really happens:

What you want

What it takes

No-holds-barred performance

Powerful Intel® Xeon® processors  
High CPU frequency & core count

Loads of fast-access storage

Fast drives, huge storage capacity

Powerful workstation graphics

Advanced graphics cards,  
such as NVIDIA® Quadro® RTX 8000,  
RTX 6000, RTX 5000 and RTX 4000,  
NVIDIA® Quadro® GV100

Transform your ideas into reality

Ultimate power & performance

Maximum reliability

Unrivalled expandability

More certifications

Innovative design

Enterprise-grade security

Which workstation is right for you?

**CELSIUS J Series**  
Slimline format, but full-sized workstation  
performance for CAD, AEC and CAE.  
Ideal for 2D and entry-level 3D modeling.

**CELSIUS W Series**  
Performance, expandability and  
great price in a microtower design.  
Perfect for entry to mid-level  
3D CAD, AEC and CAE.

**CELSIUS M Series**  
Optimized for high-end 3D CAD, CAE  
modeling and simulation.  
Whisper-quiet, brilliant performance  
for your desk.

**CELSIUS H Series**  
Leading mobile performance for  
CAD, CAE and AEC professionals.  
For no-compromise workstation  
power in any location.

**CELSIUS C Series**  
Unbeatable workstation performance from  
virtually anywhere (1U rack workstation).  
For secure remote access to CAD or media and  
entertainment applications.

**CELSIUS R Series**  
Ultimate power for most demanding  
multi-threaded workflows.  
Real-time visualization, fast rendering and  
simulation for high-end CAD and CAE.
