

# Built4You – the fast and easy way to HCI

Based on PRIMEFLEX for Nutanix Enterprise Cloud

## Jump-start your digital transformation

You want to focus fully on your business in order to remain competitive? You want to do this by taking full advantage of the opportunities offered by modern technologies, but without the hassles of dealing with the specifics? Then get started on your digital transformation journey – it's easy, quick and efficient with our new Built4You Bundles.

### We suggest this route for your journey

#### 1. Free yourself from the complexity of IT infrastructure planning and management with bundles based on PRIMEFLEX for Nutanix Enterprise Cloud

- The pre-tested and validated turnkey solution helps you select the right components to accelerate the modernization of your IT
- Leverage high-performance PRIMERGY Server XF appliances with state-of-the-art software from Nutanix for simplified procurement and deployment for carefree IT operations
- Scale your environment endlessly by simply adding more nodes
- Simple one-click management makes things easy

#### 2. Choose your Built4You Bundle in line with the requirements of your use case – at an unbeatable price

- Benefit from different configurations to suit your use case
- Based on the chosen model, you have the freedom to add more memory, disk space, or GPU as you want (VDI only)
- Add file analytics with Nutanix Files or more management functionality with Nutanix PRISM Pro

#### 3. Fast and easy deployment and integration in your existing data center

- Benefit from our additional implementation services
- Enjoy worry-free operations with our 3-year support package and SPOC for Fujitsu hardware and Nutanix software

# 2 strong partners. 1 perfectly tuned solution.

No matter whether you want to support your business processes with more performance and availability, offer your employees modern working styles or are looking for a simple and future-proof solution for data growth. Built4You Bundles offer you the best of both worlds – optimally harmonized by Fujitsu's many years of know-how in integrated systems. Choose the ideal solution for your requirements from the following bundles:
