

Multi-Cloud Services

Christian Büles
Territory Account Manager

Nutanix Customer Journey

Modernize IT
with HCI

Build an Enterprise
Cloud

Multi-Cloud Services
for Apps and Data

Unify operations across
public and private clouds

Secure and automate
applications, and consolidate
storage

Deliver enterprise apps
and VDI from any site

Need to Regain Control in a Multi-Cloud World

IT Imperatives

- Lower overall TCO
- Get IT to be more agile and move faster
- Bring full visibility to cloud costs
- Drive business digital transformation
- Meet business SLAs while maintaining control and security
