x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.

- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.

x86 Servers and Operating Systems
- Information applicable for PRIMEQUEST (PQ) and PRIMERGY (PY) Servers

Purchase of an Operating System:
Information on Operating Systems sold by Fujitsu can be found on the Fujitsu Internet site.

☑	**Certified and Supported:** The mentioned server system has met the OS Partner Certified/Logo program requirements. Fujitsu will provide technical support for the system-specific server drivers and ServerView management software that are compatible with the operating system.
❑	**Certified:** The corresponding server system has met the OS Partner Certified/Logo program requirements.
✓	**Supported:** Fujitsu will provide technical support for the specific server drivers and ServerView management software that are compatible with the operating system.
T	**Tested:** The operating system could be installed on the server and basic functions of the system have been verified.
+	Service Pack is a minimum requirement
++	Service Pack is recommended
