Fujitsu Integrated System
PRIMEFLEX for VMware vSphere

Quick and efficient adoption of VMware vSphere environments

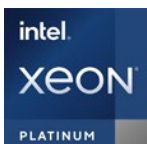

PRIMEFLEX for VMware vSphere based on the latest vSphere 7 software provides an enterprise virtualization platform for both traditional applications as well as modern applications – so IT organizations can deliver a developer-ready infrastructure, scale without compromise and simplify operations.

The Fujitsu Built4You Bundle for PRIMEFLEX for VMware vSphere includes everything you need to manage the complete lifecycle of a VMware vSphere environment – from deployment to operation and maintenance.

- Extensible 3-node package tailored to run up to 80 VMs per node with 9.6 TB capacities of raw storage per node
- Fujitsu Server PRIMERGY RX2540 M6: 2U dual-socket rack server for high usability, scalability and cost-efficiency
- Fujitsu Storage ETERNUS AF250 S3: Entry-level all-flash storage for all Tier-1 applications in small and mid-sized enterprises
- Juniper QFX5120-48Y: Top of rack switches delivering the high performance and low latency required for virtualized environments
- On-site implementation service for 3 nodes: The new PRIMEFLEX Implementation Desk along with the easy-to-use web-based PRIMEFLEX Deployment Portal makes infrastructure deployment faster, more reliable and secure
- Infrastructure support (24x7, 3 years) covering the complete hardware and software stack with a single point of contact

Intel® Xeon® Platinum processor

2 strong partners. 1 perfectly tuned solution.

If you want to refresh the IT infrastructure in your data center and remote/branch offices with a future-proof solution that supports your existing application landscape as well as modern cloud-native applications¹, the Fujitsu Built4You Bundle for PRIMEFLEX for VMware vSphere is a great starting point to make all of that a success.

PRIMEFLEX for VMware vSphere – Built4You	
Rack Infrastructure	
Model	PRIMECENTER M2 Rack 42U
Compute	
Model	3 x PRIMERGY RX2540 M6 10x 3.5'
Processor	Intel Xeon Silver 4314 16C 2.40 GHz
Memory	128 GB (8 x 16GB, 2Rx8 DDR4-3200 R ECC)
# of VMs per node	80
Storage	
Model	1 x ETERNUS AF250 S3 Base Standard
Capacity (raw)	9,6 TB (5 x AF250 S3 Value SSD SAS 1.92 TB 2.5 x1)
Networking	
Model	2 x Juniper QFX5120-48Y-AFI2
Transceiver Module	12 x 25G DAC
Software	
VMware	vCenter Server 7 STD vSphere 7 STD
Fujitsu	Infrastructure Manager (ISM) Advanced Edition V2 ETERNUS SF V16 AF250 ALL-IN FLASHPACK ²
Services	
Implementation	ImplementationPack Base for 3 nodes
Infrastructure Support	SolutionPack with SPoC (Single Point of Contact), 3 years, 24x7

1) Cloud-native application support with Kubernetes requires 'vSphere with Tanzu' capabilities available through Tanzu Basic edition in combination with vSphere Enterprise Plus edition

2) Includes ETERNUS SF Storage Cruiser V16 Standard License for Tier 1, ETERNUS SF Storage Cruiser V16 QoS Management Option for Tier 1, ETERNUS SF AdvancedCopy Manager V16 Local Copy License for Tier 1, ETERNUS SF AdvancedCopy Manager V16 Remote Copy License for Tier 1

Expertise you can bank on

Fujitsu

- 20+ years of strategic partnership with VMware, one-stop shopping for the entire VMware portfolio, and hundreds of certified VMware professionals across the globe
- Fujitsu PRIMERGY x86 servers – 20+ years of development and production know-how resulting in extremely low failure rates below market average; #1 in 70% of all VMmark 2.x benchmark categories and continue to lead in VMmark 3.x
- First class implementation services and 24/7 infrastructure solution support with a single point of contact for the complete hardware and software stack

VMware

- The leading software company delivering 20+ years of innovation to build, run, manage, connect and protect all of your apps on any cloud and any device.
- VMware vSphere®, the industry-leading compute virtualization platform with 85% market share used by 500,000+ customers throughout the world, covering more than 70 million workloads
- VMware vCenter Server®, the familiar unified, extensible management tool
