 Windows 10

Focus on the essentials

The Fujitsu work-from-home packages

At the beginning of 2020, the concept of working from home was only a minor issue for most companies. Yet this changed attitude needed to be seen as more than just a spontaneous reaction to the corona pandemic. Although made sooner than planned, these investments have to be effective and provide a long-term solution.

SPACE-SAVING AND PRODUCTIVITY-ENHANCING

Fujitsu has been part of the "Office 21" research association from the Fraunhofer Institut for many years. The results of this research are regularly integrated into the development of our products. One finding was that there is a strong positive connection between employees' sense of well-being in the workplace and their productivity.

INNOVATIVE ACCESS PROTECTION

PalmSecure™, our proven biometric authentication technology based on hand vascular pattern recognition has proven to be one of the most precise biometric authentication

solutions currently available. PalmSecure™ offers a high level of precision, is easy to use – and also contactless. This is exceptionally hygienic as there is no need for skin contact.

ERGONOMIC AND VERSATILE

Fujitsu's ergonomic monitors are height-adjustable and automatically adapt to the lighting conditions in the room. This enables the workplace to be used by several different people who live in the same household. Flexibly adjusting the position of the display to the needs of each individual user prevents painful posture mistakes.

What requirements does the optimum work-from-home workplace have to fulfil? Find out.

Smart Workplace Easy

Smart Workplace Advanced

Smart Workplace Deluxe

Smart Workplace Ultra-Compact

Smart Workplace Flexible Power User

1 Smart Workplace Easy

This work-from-home package enables you to work from home and on the go. The package focuses on attractive value for money. The 24 inch monitor provides a sound foundation for a home workplace. Optionally, a second 24 inch monitor can also be added to the bundle. The keyboard with integrated headset rounds out the set.

LIFEBOOK E5510

The FUJITSU Notebook LIFEBOOK E5510 is exclusively designed for office workers needing a powerful, fully-equipped notebook. Thanks to the 10th generation Intel® Core™ processor you can work efficiently wherever you are. The advanced security features like PalmSecure™ are protecting your business data against unauthorized access. Modern Standby provides you an instantly ready and always connected notebook.

P24-9 TE Display with Integrated Port Replicator/USB-C

The FUJITSU P24-9 TE display is a wide-screen display with an ultra-thin bezel and a 1920 x 1080 FHD resolution which combines future workplace concepts with sophisticated ergonomics, making it ideal for intensive office work. The monitor features a USB Type-C port for a tidy, shared workplace and also supports DaisyChain, enabling the easy connection of up to 2 displays.

Optional: 2. B24-9 TE Display

The FUJITSU Display B24-9 TE is a widescreen display with 1920 x 1080 Full HD resolution with a ultra-thin bezel housing. The monitor has a wide viewing angle that delivers consistent picture quality and DisplayView™ manageability software for further enhancing monitor features with a range of connectivity options ideal for medium- and large-sized businesses.

Wireless Keyboard and Mouse Set LX410

The Wireless Keyboard Set LX410 is an excellent desktop solution for users with ambition. This durable keyboard set is equipped with 2.4 GHz technology and plug and play technology. The elegant mouse with new silent keys works on many surfaces due to its precise 1600 dpi sensor. It offers fabulous features and an ultra slim, portable design.

Optional: Dual Monitor Stand

The FUJITSU Dual Monitor Stand is designed to accommodate two displays of up to 27-inches and comes pre-assembled and ready to be used straight out-of-the box saving you time and energy. The dual monitor stand also has an integrated cable guide for a clean desk and clutter free experience.

2 Smart Workplace Advanced

The Smart Workplace Advanced bundle is the option for anyone who needs larger displays for their daily work. This package enables you to work from home and on the go. This bundle contains the LIFEBOOK U7411 as well as one or two 27 inch monitors, as desired. The keyboard with integrated headset rounds out this bundle.

LIFEBOOK U7411

The FUJITSU Notebook LIFEBOOK U7411 is a slim notebook, based on the 11th generation Intel® Core™ processor, for business professionals seeking optimum mobility for business trips and ergonomics in the office. The 14-inch screen, light weight of 1.2 kg, 2x Intel® Thunderbolt™ 4 ports and an all-day battery runtime enables it to provide excellent mobility and portability.

P 27-9 TS QHD Display with Integrated Port Replicator/USB-C

The Fujitsu Display P27-9 TS QHD is a QHD (2560x1440 resolution) widescreen monitor optimized for pixel-, color- and performance-hungry professionals. The built-in port replicator functions provide excellent networking and 65W power delivery to charge mobile devices. Elaborate down to the last details, it's the new face and brain of a modern Shared Workplace.

Optional: 2. B27-9 TS QHD Display

The Fujitsu Display B27-9 TS QHD is a QHD (2560x1440 resolution) widescreen monitor optimized for pixel, color and performance-hungry professionals. Elaborate down to the last details, it's the right tool for all professionals. With its stylish matt black housing, 6-in-1 adjustable stand base and outstanding picture performance, it's satisfying all needs of demanding applications.

Wireless Keyboard and Mouse Set LX410

The Wireless Keyboard Set LX410 is an excellent desktop solution for users with ambition. This durable keyboard set is equipped with 2.4 GHz technology and plug and play technology. The elegant mouse with new silent keys works on many surfaces due to its precise 1600 dpi sensor. It offers fabulous features and an ultra slim, portable design.

Optional: Dual Monitor Stand

The FUJITSU Dual Monitor Stand was designed for two displays up to 27 inches and is delivered preassembled and ready to use, saving you time and effort. In addition, the stand for two monitors also features integrated cable guidance to ensure a clean and clutter-free desk.

3 Smart Workplace Deluxe

The Smart Workplace Deluxe Bundle is the right choice if you prefer an even larger monitor combined with an even lighter notebook. This work-from-home bundle consists of the LIFEBOOK U9311X, a powerful and ultra light business notebook together with the ergonomic 34 inch P 34-9 US curved monitor. You can connect this monitor to your notebook using only a USB-C cable. This eliminates the clutter on your desk. The wireless mouse and keyboard set perfectly compliments this configuration and simplifies working from home. However, because you usually work between home and the office or on the go, your work-from-home hardware has to be suitable for both mobile and stationary workplaces.

LIFEBOOK U9311X black

The FUJITSU Tablet LIFEBOOK U9311X is a lightweight 360-degree foldable device. All-day battery runtime and global LTE ensure highest productivity in any place, while security features such as the integrated PalmSecure™ sensor keep your business data protected. Powerful performance and full connectivity with Intel® Thunderbolt™ 4 offer you best-in-class user experience.

Tech specs

P34-9 US UWQHD Display with Integrated Port Replicator/USB-C
