FUJITSU Tablet STYLISTIC Q7311

Tablet Mobility meets Notebook Productivity

The FUJITSU Tablet STYLISTIC Q7311 is a highly durable and secure 2-in-1 detachable that meets the demands of today’s mobile professionals. Its 33.8 cm (13.3-inch) FHD anti-glare display with pen and touch support, and 11th generation Intel® Core™ i7 processor technology ensure excellent performance, even when you’re on the go.

Tablet mobility and notebook productivity in one device
Enjoy the freedom to work from anywhere, anytime and keep productive even in unconventional work environments. With a weight starting at 800 grams, the FUJITSU Tablet STYLISTIC Q7311 provides you with ultimate mobility. At the same time, the device meets the highest standards of comfort and security. State-of-the-art security options and the robust design with reinforced corners, which is also IP42-compliant thanks to port caps, are just some of the highlights. Another is the backlit keyboard dock that turns your tablet into a full-fledged notebook in seconds. So you stay mobile while you work:

- Lightweight, handy form factor
- High durability
- Full day battery life
- State-of-the-art security options
- Comfortable pen and touch support
- Excellent connectivity

11th Gen Intel® Core™ i7
processors: Designed
for what's coming next.

Extremely high durability

The new IP 42-compliant housing is extremely durable. It has reinforced corners and is protected against both splashing water and dirt; therefore it also complies with the military standard MIL-STD-810G. This makes working comfortable in every situation – even under very rough conditions. An optionally available TPU cover with hand strap also provides even more robustness and comfort for mobile work.

State-of-the-art security options

Protect your sensitive business data with a fingerprint sensor and infrared (IR) Hello Cam, the enterprise-grade identity verification mechanism. Add additional security with the integrated smart card reader and the new MS Modern standby feature.

Best-in-class connectivity

Work anywhere with the best connections. The tablet features integrated WLAN, LTE Sierra Wireless EM7455 (Cat. 6) and GPS functionality. Interfaces such as USB Type-C with Intel® Thunderbolt™ 4, micro HDMI and memory card slots provide additional flexibility in your daily work.

Pen and touch support

The 33.8 cm (13.3 inch) Full HD anti-glare display makes mobile working comfortable. It supports both touch and pen. The wireless Wacom™ active electrostatic (AES) pen supports 4,096 pressure levels and is recharged inductively as soon as it is placed in the integrated garage in the housing.

Backlit keyboard dock with LAN- and charging port

Easily turn your tablet into a full-fledged notebook with the backlit keyboard dock. All the ports you need, such as LAN and charging, are in the dock, so you’re perfectly equipped for office work.
