

Data Sheet

Fujitsu ESPRIMO P558

Flexible and economic desktop PC for standard office applications

The FUJITSU ESPRIMO P558 Desktop PC provides high-quality computing for your daily office tasks. It supports attractive price points and its managed lifecycle ensures the functional stability needed for project continuity. Optional security functions, such as SmartCard reader, the EraseDisk feature and cable cover help secure your valuable business data as well as hardware components. You can easily configure the PC to meet your specific hardware needs as well as customize it to satisfy even more complex project requirements. With the ENERGY STAR® certification, the Low Power Active Mode and up to 94%-efficient power supply, ESPRIMO P558 helps reduce your carbon footprint and energy bill.

High performance and best price/performance ratio
Powerful and cost-effective microtower

- Up to 9th generation Intel® Core™ processor family

Best energy efficiency coupled with performance
Low power consumption combined with highest levels of performance

- Latest Intel® processors, an optional switched monitor outlet and a power supply with up to 94% efficiency

Manageability and Ease of Use

“Plug & work” PC that ensures smooth system administration

- Easy to integrate into existing IT landscapes and reliable DeskView manageability tools

Robust Security

Designed to protect data and hardware components against manipulation and theft

- Cable cover with lock option at the back to protect ports, cables and components from theft
- Embedded Trusted Platform Module (TPM), Fujitsu Authconductor software, EraseDisk software and SmartCard are available as options

Made in Germany

Outstanding quality and stable functions based on German production standards

- The development, production and functionality tests - all under one roof in Germany
